

artacent OCULAR

Designed for use in the eye, Artacent Ocular is a human amniotic tissue wound covering.

to us, it's personal.

tides medical® stands behind our advanced products and expert service, so you can help patients access the treatments they deserve.

EFFECTIVE

Artacent® Ocular is a high-quality, amniotic tissue graft used as a wound covering for a variety of ocular procedures.

SAFE

Our proprietary Artacleanse® Process is strong enough to make a graft safe for implantation but gentle enough to maintain natural biologic factors.

COMFORTABLE

Artacent Ocular is free of rigid or foreign substances that could make it uncomfortable in the sensitive eye area.

artacent OCULAR

Designed for use in the eye, Artacent Ocular is a human amniotic tissue wound covering.

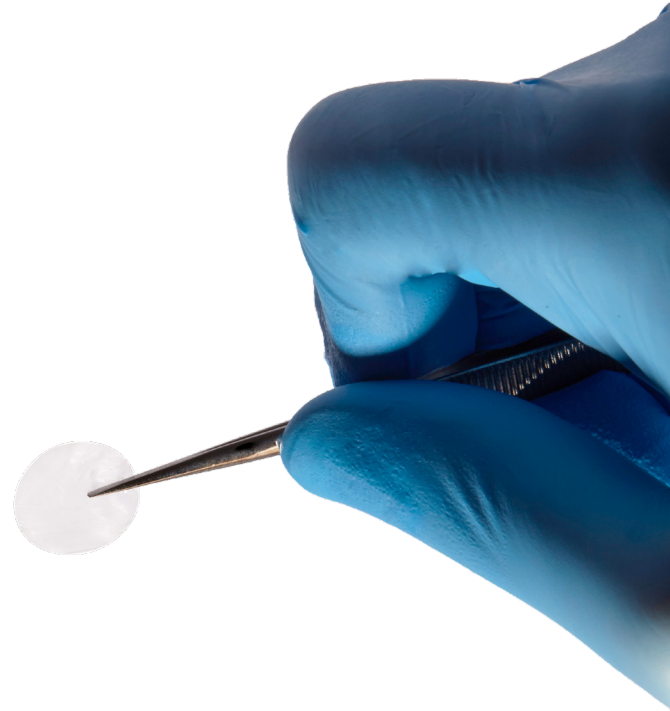

Artacent® Ocular is a safe, natural biologic barrier that maintains the original powerful characteristics of amniotic tissue. The unique design of Artacent Ocular allows for easy manipulation and repositioning, making it a flexible, dependable option for a variety of wound covering applications.

EASE-OF-USE: Remains in place and doesn't require sutures.

NATURAL: Free of rigid or foreign substances that could make it uncomfortable in the sensitive eye area.

FAVORABLE: Ample inventory options and overnight shipping, favorable customer programs, with minimal risk.

FLEXIBLE: Stores dry at room temperature with no need for refrigeration. Product remains safe and effective with a shelf life of 5 years.
